

GREEN INITIATIVES

HERE'S HOW WE ARE DOING OUR PART...

Washington Property Company is committed to taking a pro-active approach to reducing our environmental impact at all of our Commercial Properties. We are making progress to increase our energy efficiency and to Reduce, Reuse and Recycle. We are striving to find more energy efficient ways of doing business, to assist and encourage our tenants in the endeavors to make a positive impact and to sustain our resources.

- Energy Management Computer Aided Control System of Heating/AC.
- ENERGY STAR certified buildings from the U.S. Environmental Protection Agency.
- LEED Certification for Existing Buildings from the U.S. Green Building Council.
- LEED Certification for Core & Shell for new construction for U.S. Green Building Council.
- The installation of Energy Efficient Lighting and Motion Sensor Lighting.
- Recycling Products – Paper, Cardboard, Aluminum and Glass.
- High Performance Green Cleaning.
- Low Flow Water Aerators; Motion Sensor Faucets and Commodes.

HERE'S HOW YOU CAN DO YOUR PART...

REPORT LEAKS

A dripping faucet can waste over 500 gallons of water per month. Please notify us of leaking faucets and running toilets right away.

UNPLUG IT

Turn off lights in areas not being used. Unplug appliances not being used. Even electronics that are turned off still use electricity while plugged into an outlet.

REUSE AND RECYCLE

Purchase items that do not have excessive packaging. Buy energy efficient products and reusable products instead of disposable ones. Recycle as much as you can in your office recycling bins. If you need more bins, please submit our Recycling Container Request Form.

SUGGESTIONS?

We are always open to your suggestions – write in and let us know your ideas on how we can help you and your office become more environmentally friendly. Contact us at info@washproperty.com.
